Oooops!
Accidents happen but intentional damage to the accommodation will result in a fine. If anything in communal areas is damaged and no one takes responsibility, a charge will be made equally to all residents in your flat/block. However, you have sole responsibility for the upkeep of your room.

If you are found responsible for any damage to the communal living areas, you will be charged – for further information on charges please see Section 8. To find out more about what’s expected of you in terms of general upkeep and cleaning (and any charges) please refer to the Clean Living section, plus there’s a reminder of basic charges at the back of this guide.

Reporting A Fault
We prioritise repairs depending on their urgency. Emergency repairs include a complete loss of power, heating, lighting or hot water and these take top priority – we aim to fix these problems within 24 hours. Less serious problems are looked at within seven working days, while minor problems are dealt with within four weeks. We will always try to let you know in advance if we need to access your room to carry out essential maintenance or repair work, but in rare cases this may not be possible.

If you are worried about anything regarding the maintenance or safety of any equipment in your room or the communal areas, please contact us via e-mail residential.services@hey.nhs.uk or ext 4087 CHH.

Out of Hours Emergency Repair?
If you have an out of hours emergency maintenance issue (see out of hours emergency section at the beginning of the booklet). As reported recently within the Media, the increase of bed bugs in the United Kingdom has become quite common.

**Regular checking of mattresses/bedding is essential.**

Precautions can be taken to prevent these infestations:

1. Change bedding regularly.
2. Turn and vacuum mattresses regularly checking to see if anything is visible.
3. Good housekeeping within rooms is essential.

Domestic access is required within your room (single only) on a weekly basis.

Residential Services carry out regularly monitoring throughout the year of all accommodation.

If an infestation is discovered within your room and you have neglected to follow the above a charge may be imposed on you.

If you would like any further information about bed bugs, please contact the Residential Services Team.

- Do not overfill kettles – only boil the amount of water required.
- Switch cookers off at the mains after use.
- Do not leave refrigerator and/or freezer doors open longer than necessary.
- Do not leave the iron switched on, even if stopping for a break. On no account must the floor be used when pressing clothes. Any burn marks to the carpet will be charger for.
- If TV, Hi Fi, etc is equipped with a ‘stand by’ mode to switch them on/off they still consume electricity even if they are not in use. Physically switch them off.

Gas:

- Turn off/down radiators in rooms which are not in use.
- Do not open windows and doors when the heating is on.
- Where possible do not position furniture in front of radiators, as this will limit the heat output.

Water:

- Do not overfill baths – as this will save on energy and water charges.
- Make sure all taps are turned off. Dripping taps should be reported to the Residential Services Office.

Extractor Fans/ Ventilation:

Please do not turn off the extractor fans at the isolator switch – they must remain on as they will come on/off when the light switch is pulled. It is imperative that windows are open/ extractors operate when showers are in use to prevent the build up of mould which forms from condensation due to lack of ventilation.
