

# IDENTIFYING OUR STAFF

This poster has been designed to assist you in identifying the different people you may encounter during your visit to our hospital. Our staff wear distinct uniforms unique to their position and/or speciality. In addition, all Trust staff are required to wear an Identification Badge at all times, so if you don't know who someone is or what job they do, please ask! Staff who work within a clinical setting are to adhere to a "bare below the elbow" dress code.

Our [Trust Uniform and Corporate Dress Code](#) gives clear information on how all staff should be dressed and present themselves. If you would like to see a copy of this policy, please ask a staff member or contact the [Patient Advice and Liaison Service \(PALS\)](#) on 623065.
